Did you not swear before the grand jury that you Jurge Stnart at F a clock in the morning when went to the bank | A. There must be some mis-

is take.

[Question repeated and same answer.]

Q. Can you remember one way or the other? A. I onet know. I did not sak Staart for a receipt; I are t suppose he wou'd have given me one if I itad; I did so indence in him them at the time I handed sage Staart the money I did not suspect him of being a suppose that I did not suspect him of being the suppose that I did not suspect him to be in the suppose that I did not suspect him to be in the suppose that I did not suspect him to be in the suppose that I did not suspect him to be in the suppose that I did not suspect him to be in the suppose that I did not suspect him to be in the suppose that I did not suspect him to be into the suppose that I did not suspect him to be into the suppose that I did not suspect him to be into the suppose that I did not suspect him to be into the suppose that I did not suspect him to be into the suppose brishy: I don't recollect of ever swearing that I did so suspect him: I have no confidence in any one and I thought at the time Judge Stuart should have given thought at the time Judge Stuart should have given me a receipt, but then again I looked at it in this light, that perhaps he was afraid comething would come out. I called to see Stuart Thursday night after paying the mency. I do not think I went on Friday or Monday night, but I went on Saturday night; I am mistaken, I was there on Friday night; this paper and this ladorsement was written by Stuart on Saturday night; Feb. 17; I think I did not swear before the grand jury that I received this paper the day it bears date. I might have said so, but I did get them on the 17th of the month; I am not positive whether I swore in the grand-jury room that the letter which I received at Philadelphia, for warded by my brother, was in Stuart's handwriting; I think I swore it was not: I may have sworn that I thought my husband destroyed it; be did destroy it in my presence; the first one hunbe did destroy it in my presence; the first one hun-dred dollars was given me by Stuart to operate upon Carr to get him away, and be told me to be sure and see him the next day; Stuart said he would give me a handred dollars a month, and then if I was a mind to give him a nice gold watch and chain, it would be all right; when I saw Carr I thought he did not do to give him a nice gold watch and chain, it would be all right; when I saw Carr I thought he did not seem to want to persecute my husband; I saked him if fifty dollars would be any object to leave; he refused to take the money; I would gladly have given fit to him if he weald have accepted it; I missed seeing Suart one day between 1sth July and when he was taken sack; I do not recollect of any longer time than that I do not see him. Q. Who called on you in Berlin and asked you to

on with Connilyo! A. I decline answering.
Was it not Burtis! A. I decline to answer.
Who first called on you about the matter in !
A. Mr. and Mrs. Burtis came on with me. Q. Did anybody ask you to come on from Boston?

I have promised Mr. Stuart to come on the first of

(Question repeated.) A. Not to my knowledge.
Q. Did you receive any letter my knowledge. Did you receive any letter about it? (No an-

(Question repeated.) Witness—From whom? Counsel. From anybody, about that matter. Witness. I received letters from my relatives; there was no letter received in Boston relative to my coming on.
Q. Did Connolly receive a letter? A. Toat I do

Q. Did Connolly receive a lease?

Q. Did you see any letter in Connolly's possession about your coming on to New York? A. I received letters from my sister.

Q. From anybody else in the city of New-York beside Mrs. Fish? A. I don't remember; I came to New York, and was sent for to go to Mr. Smith's office; Mr. Burtis came to me, on the corner of Watt and Varick streets, at a family named More; I had then no notion what I was going to the Recorder's office for; Burtis said it would do me no barm to hear Smith's and Hall's conversation, that I need not say

then no notion what I was going to the Recorder's office for; Burits said it would do me no harm to bear Smith's and Hall's conversation, that I need not say anything myself; I think Mr. Hall sent for me.

Q. Did you not receive a letter stating that if you come and testify against Shart, Fish and Albert Burtis would be released from a proceedation in Maesachusetta? A. I never received any such letter; I saw Mr. Smith and Mr. Hall in a room in Smith's office, and Mr. Hall said to me: "You called on me, Mrs. Cou-"nolly, last Summer;" and he asked by whom I was sent there; he then said: "You recollect the time you "called at my office, you said you were sant by "a gentleman !" I said "Yes;" he then asked who the gentleman was; I declined to answer; he said if I would answer such questions as weald be put me before the grand jury and state the truth and nothing but the truth, he would not have my husband tried on that indictment; this was on the 2d day of October; Mr. Smith did not also make this promise; we were there but a short time; Mr. Burtis went with me when I left; I don't think we were there a half an hour; it might have been fifteen or twenty minutes; Burtis did not go with me to Beston; the next evening I returned to the city with my husband; Burtis met us at the depot, and we three went to Mr. Hall's house.

The court then adjourned, to meet at 10 o clock on Monday.

Bds, 71... 75 

FRIDAY, Nov. 16-P. M.

The market was rampant to day with enormous transactions, especially in Eric, of which over 10,000 sbares were sold, a day's business seldom if ever exceeded. The bulls swept the market of everything offered, and the shorts also bought in considerable quantities of stocks. The general market advanced to 3 tr cent. At the close and after the second board there was a reaction from the buoyancy of the morning, which, however, mainly touched Erie, which was, with small exceptions, the only stock dealt in. After advancing in the morning from 524 to 531. Eric fell back to 511, and finally closed at 521, which is about the price of yesterday. A purchase of 925 shares was made for England. The October receipts, it will be seen below, were \$603,000, showing a gain of \$64,120 on last year. A private sale of 4,000 shares is reported to have been made yesterday by one of the bull party, but no one appears to know the particulars. The operators for a rise express themselves very confident of a further advance. Cash sto k is considerably more p enty than it was. Reading advanced 11 P cent, touching 21, but closing heavy. Panama advanced to 1031. All the Western shares were in demand at advanced prices. Cleveland and Toledo advanced most rapidly, selling at 56 but closing at 751, an improvement of 21 P cent; Chicago and Rock Island advanced to 1; Michigan Central and Michigan Southern were little better. For Galens and Chicago 120 was bid. The earnings of November, thus far, have been very large, and the surplus on hand, now applicable to a dividend, is estimated at less than 18 V cent, which will be increased by 1st Feb., the dividend period, to from 22 to 25 4 cent. The new stock, being 10 4 cent on the present amount, will not be issued until after the February dividend. If these figures are correct, the stock is cheaper at 120 than most of the other railroads on the list, which are selling below par. Cleveland and Pittsburgh sold at 62 at the board, but in the street was sold at 65, and 67, buyer sixty, was bid. The receipts for October were 872,500-some 80 P cent increase over last year. Cumberland was ? If cent better, and active. Nicaragua improved | # cent. In railroad bonds the sales were \$130,000. There is a much better feeling in these securities, and they are again available for loans or sales. Dlineis Central was firm at 79. Eries, 1875, 883; 1871, 783. Terre Haute and Alton 8s, 78. Goshen Line, 821. A private sale of \$90,000 of Gosben bonds was made for investment at 82. These bonds are as good as any of the Michigan Southern and Northern Indiana bonds being a first mortgage on 134 miles of trunk road, which has cost double the amount, and are convertible into the Sinking Fund bonds of the Michigan Southern road. They have the security of a road which has been one of the most successful of the Western roads, and paid regular 10 P cent dividends. State stocks are not

The business in sterling for the steamer Arago has been moderate, and rates are down about | 1 cent both for sterling and francs. Sterling is quoted at out sales. Some produce bills have been sold even lower than 7 P cent. France are 5.271 #5.221, and the sales reach a considerable amount. The supply of bills is large, both from the South and home draw-

Call loans were more easily negotiated to-day, the supply of money being evidently better. This is also evident from the great activity and buoyancy in the stock market which could not exist without relief in the money market. Paper is as before quoted 10 #12 for the best signatures.

An experienced writer upon statistics, Mr. Card. has published in the London journals his views upon

the British crop. He says:

The crop has now been tested in all parts of England, and while the yield is found to fall considerably short of the great crop of last year, and in some particular districts owing to special circumstances, is very defective, yet, on the whole, it is believed to be nearly asserted to be the property of th an average produce per a re over much beyond an average surface. Farmers deliveries of wheat in the average surface. Farmers denveries of rest week in various English markets during the first week in

average surface. Farmers derivates of week in various English markets during the first week in October for the last three years, as shown by The Gazette, are a pretty securate indication of the correctness of this conclusion. For the week ending October 6, the wheat delivered was:

1853. 1854. 1855.

Quarters. Quarters. Quarters. 55,495 151,801 135,221

From these figures we should be almost justified in assuming that any defect in the yield is compensated by the increased breadth under crop.

I am inclined, however—and I think it will be a prudent calculation—to assume that the yield of the last wheat crop is something below an average. We may take it at one tenth; and then with the foregoing data, we have the following results as to the produce of 1855, viz:

Apparent deficiency to be supplied from abroad...... 2,812,500 which is little more than one-half of the average annual importation of the last five years.

Cotton is a little better since the news. In Breadstuffs there is a large activity at improving prices. Flour is 124c. higher, with sales to-day of 25,000 bbls. Wheat 2 to 3c. better, with sales 100,000 bushels at \$1 90 2 \$2 for Red; \$2 10 2 \$2 25 for White. Corn is also advancing, with sales 100,000 bushels at 99c. @ \$1. A lange portion of the above purchases are for export. Sugars, since the steamer's news, have been excited, and advanced I to Ic. P 15.

The Clearing house system, first established here, is fast spreading. In addition to a house in Boston for the city Banks, it is proposed to establish one for the country Banks of Massachusetts; and in Pailadelphia the Banks are also arranging for the establishment of a Clearing-house.

The directors and trustees of the bondholders of the Ogdensburg railroad company he'd a meeting on Wednesday, under the act of the legislature of New-York, which authorizes the consolidation of the various interests into a new stock company. The committee is composed of nine, each interest being represented by three persons, and the following gentlemen have been elected, viz: Stock-Messre, J. W. Clark and Isase Livermore of Boston, and J. L. Russell of Canton, N. Y. First mortgage bonds-Messrs. Samuel A. Eliot, James Read and Abel Adams of Boston. Second mortgage bonds-Messrs. Daniel Denny and Geo. A. Kettelle of Boston, and George Parker of Ogdensburg. The net earnings of the road during six months ending October 1 last, after paying ordinary expenses and renewals, were \$127,565 93.

ordinary expenses and renewals, were \$127,565 95.

At Boston, The Journal says:

The money market continues stringent, with applications on short paper at 12 \$\psi\$ cent. There is not so large an amount of six months paper of prime grade offered, but lenders show no disposition to make concessions in rates. The banks are rapidly gaining strength, and will generally discount more freely during the week. The Merchan's Bank received an order on Sub-freezy on Tuesday for \$100,000 in color order on Sub treasury on Tuesday for \$100,000 in coia, and other remittances in moderate amounts.

Wm. Neff, erq., has resigned the presidency of the Ohio and Mississippi railroad, (eastern division), and with two other directors retired from the board. liam Green, esq., has been elected in his place. The affairs of this road appear to be in a bad state.

steckholders of the Ohio and Mississippi railroad, western division. After informing them that the injunction applied for by the city of St. Louis has been dissolved and that the sale of the road will take place on the 20th inst, Messrs. Page & Bason recapitalate the propositions previously made by them for the settlement of the difficulties at issue, they propose that a meeting of stockholders shall be called to act upon the following propositions:

following propositions:

1. All legal proceedings, both in and out of this State, connected with this company, against us or either of us, or any of the officers or directors of the company, to be discontinued and dismissed.

2. A recommendation to the directors of the company to be discontinued and dismissed.

2. A recommendation to the arrectors of the company to issue what may be arranged to be (proper parties uniting) third mortgage bonds to the extent of \$1,500,000, to be sold to us at fifty cen's on the dollar, the proceeds to be applied, first, to the full payment of the debt due us by the company and unsecured, and the balance on the note of June 5, and now secured by deed of trust, and under which the road, &c, is observed for alle.

by deed of trust, and under which the road, &c , is advertised for sale.

3. For the purpose of putting to rest all questions relative to stock issued under amendments to the charter at different times, the stockholders to ratify all amendments thereto, and recognize as valid stock issued heretotore under same.

4. The stockholders to agree that in case the city and county will pay, within twelve months from this date, the balance due on note on 5th June as aforesaid, taking therefor the stock of the company, that they will adopt and accept as legal and binding upon the company the subscriptions heretofore illegally made by the city and county.

5. The foregoing being done, we hereby agree that we will arrange to stop the sale of the road and prop-

s. The foregoing being done, we hereby agree that we will arrange to stop the sale of the road and property advertised for 20th instant; and further, that the same shall not be sold for the period named above under said deed of trust—thereby giving the city and county time to obtain necessary legislation to legalize subscriptions already made, and for the further subscriptions recessary, and the issuance of bonds to pay same and negotiate their securities.

The Governor of Missouri, in his message, objects o the propositions of the roads in that State to raise he first lien held by the State, that first mortgage bonds may be issued for their completion, but is willing that further aid should be granted by the State, provided the State bonds issued do not exceed what the roads would sell for in reimbursement. He

adds:
A summary of so much of the acts of the General Assembly as relates to the amounts of the public credit loaned to the roads, the terms and conditions of the loan, and the remedy reserved to the State when the companies fail to fulfil their obligations.
The whole amount provided to be loaned to each of the companies, upon a fulfilment on their part of the conditions presedent is as follows:
To the reside R. R. company, not trunk to Kansus \$3,000,000 To the Pacific R. R. company, wonth-watern branch 1,000,000 To the St. Louis and Iran Mountain R. R. company 1, 200,000 To the North Missouri railroad company 2, 2,000,000 To the North Missouri railroad company 2, 2,000,000

lowing amounts in State bonds, viz:

To the Pacific railroad company, main trush to Kansas, \$3,000,000

To the Pacific railroad company, main trush to Kansas, \$3,000,000

To the Hantiba and Sa. Joseph railroad company. 500,000

To the Iron Mountain railroad company. 400,000

The Pacific railroad company has made no applica-tion for any portion of the bonds authorized to be issued in sid of the construction of the South-western The affairs of the Pacific road, says The St. Louis ping travel and cutting off receipts, and its condition was little better than bankraptcy before. Says The

Intelligencer:

"Although the president and directors have not yet acknowledged the fact, it is nevertheless well known that the road is satisfy broken down in means and credit and must seen be abandoned as hypoless bankptcy, unless some new, and as yet undevised step, taken by the city of St. Louis and by the State to

saveiL' The message of the governor of Georgia, transmitted to the Legislature recently convened, states that the entire debt of the State amounts to \$2,644,222 22. The governor expresses some surprise that the price of Georgia bonds should be lower in market than those of other States which owe a larger debt, and he calls the attention of the Legislature to the fact. The governor attributes it solely to the reason that the intercet on the State bonds is payable at Augusts, and Sa vannah, and at the treasury at Milledgeville. It is recommended to make the interest payable in New-

Havans, white 1,500 mats Cassis at Stc., which shows a genine of Fe. At private sale holders ask 31c.

SEEDS—11c stock of Clover is reduced, and the market is urgant at light. Throuby is sale before ask 35 @ 9

House Fax is in den and at 8 Society 10 for 86 h. Linased it may be a firm at 32 4 @ 62 4 9 bush.

SEANS—The supply of Curacoa Goat has increased, but prices with market is per sale quiet; sales of 2 @ 60 b Vera Cruz the cash.

t Sic cash. The We learn of a sale of 750 slate Revelly at 34c., 6 mos. Sales are dull, sales of 250 boxes 3d X, from store, at \$10.50, 6

Pistor are cult; sales of 20 boxes 3d X, from store, at \$10.50, 6 m.s.

SALTPETFR—Under the influence of the advices from Europe, the export from England being prohibited, prices have advanced, with sales of 5,000 bags Cru e at 150., 6 mos.

SPEI TER is full and offering for sale at \$6 cash for Plates.

TEAS—The market has been fairly active, the sales being chiefly of duplicates of jets offered at the large public sale on Fidery sat, the prices corresponding with the ones then established. The stock in fresh bissans is now very light. There have been no mirrous this week. At the section this morning a good company was present, and a fair spirit manifested.

Nexity all the catalogue was sold at prices fairly equal to the last public offering.

TOSACCO is is moderate demand at force fairly equal to the

lest public offering.

\*\*PUBACCO wile underste demand at former prices; sales of 100 hnc. Rentucky at 74612jc.; 80 bales Havana at 27055c; 56 cases Seed Leaf at 7614c, and 40 bales Cientusgos on private

Means best Let at the recent and the market has been quiet, and the sales do not exceed 15,000 B flence at 310 Me. for common to low, and \$12.00 k for receiving and fine. Pailed is plenty with sales of 4,000 B super at 340 Me., and extra at 100 Me., While X - The market is without change, still unsettledgand dell, raise of 100 bbs at 32,000 for Onio and 32,000 for the first of the Agray and dail at 600 time.

British and American Iron Market.

Portland and American from Market.

Posting advices in respect to the facts market are of an equivocal character. Sheet, Bar and Pig Iron for ship building are, by a decree, to be aimined into France for three years free of dirt. This was expected to statish, or even advance prices in England, as it would, were there not temporary counteracting influences from money stringency, together with the threatening tone of the British government toward the United States.

There had been on the whole a failing off in the temmad for both Bar and Pig Iron. Welsh Bars were receding and all the Intelligencer, have reached a crisis by the late dis-acter. Bridge after bridge has broken down, stop-

best brance were able to remanant full prison. Seatch Pig had declined—quentations were F2 for No. 1 Germberrie; 77/8 for a. m. b.; Welsh and Stafferdshire Pig were also weaker at 95 in 160. The cappily of English bars in America has recoming accumulated; but we are assured that there are no orders gifter shroad. American mills continue from under a fair amount of orders. Throughout Prancy learning to see of Pig have been very considerable, leaving altegether but little stock, and in some districts all that can be made before the close of navigation is contracted for. In many instance accessing to seel ran been projectively in the city during the past week have been quite limited. The agregate sales of Pig were 1800 turns of which 1/60 tune forgs were sold on private terms; sales of No. I have been made at \$30, \$27 and \$21, according to brand. No 2 at \$25 to \$27, and forge at \$22 to \$28. American Bars are well rustained at \$70 to \$75. Ralls are firm at \$60, cash.
